NIBLS, Inc. Intellectual Property Rights Update (v4)

Creative Commons Disclosure, Defensive Prior Art, Biometric Candlestick Doji Architecture, & Zero-Dilution IP Framework

Primary Corporate Entity: National Ice Ball League Sport, Inc.
DBA Operating Names: BIM-APES Software | NIBLS, Inc.
Alternate Corporate Names: National Intelligent Ball League Sports | National Intelligent Blockchain League Sports
Sole IP Owner & Licensor: Dashawn Ramel Bledsoe

1. Legal Basis & Defensive Prior Art Framework

This document establishes an immutable public prior art disclosure under 35 U.S.C. §102 and Creative Commons Attribution-NoDerivatives 4.0 International (CC BY-ND 4.0) standards. All software specifications, mathematical models, sensor fusion pipelines, and trade management protocols disclosed herein are the sole personal intellectual property of Dashawn Ramel Bledsoe under **National Ice Ball League Sport, Inc. (dba: BIM-APES Software / NIBLS, Inc.)**, also doing business under National Intelligent Ball League Sports and National Intelligent Blockchain League Sports. To protect core algorithm source code while establishing legal prior art against unauthorized third-party patenting, trade-secret black-box logic is maintained under the Defend Trade Secrets Act (DTSA) and defensively published on IP.com (IPCOM000271355D and IPCOM000254433).

2. Scope of Protected Intellectual Property Domains

Domain Vertical	Protected Systems & Assets	Legal Protection & Governance Mechanism
1. Smart Hardware	Tech+Ball™ smart athletic ball, 1000Hz accelerometers, fingerprint sensors, GPS, ultrasonic range modules.	Defensive publication, utility patent specifications, hardware trade secrets.
2. Biomechanical Engine	Telekinesis-Synchronous™ processing engine, multi-sensor kinematic/kinetic fusion, 1000Hz edge telemetry.	IP.com registration, black-box trade secrets, continuous open-source prior art.
3. Black-Box Rule Stack	Source code for EventRuleEngine, BiometricRuleEngine, NILRuleEngine, OverlayRuleEngine, SponsorRuleEngine.	FICO®-style trade secret architecture, DTSA federal protection, API isolation.
4. Quantitative Finance & NIL	Model NIL vs. Market NIL valuation engine, BLEI-E multi-asset risk engine, Fama-MacBeth 2-pass regressions.	Financial model trade secrets, SEC Reg D compliance frameworks, IP.com prior art.
5. Visual UI & Spatial AR	BiomechFlow™ Capsule visual design system (6 zones), Candlestick Doji triggers, customized AR 3D spatial joint overlays.	Common law visual copyright, trademark registrations, defensive UI publication.
6. On-Chain Clearing Rails	60/20/10/10 Fan Micro-Rail clearing engine, Speed Token staking, Solana micro-settlement, Reg D bond rails.	Smart contract source code, Creative Commons CC BY-ND 4.0 license, DTSA protection.

3. Specific Disclosures: Biometric Candlestick Doji & Reversal Logic

National Ice Ball League Sport, Inc. (dba: BIM-APES Software / NIBLS, Inc.) explicitly claims prior art ownership over the conversion of 1000Hz physiological sensor telemetry into OHLC Biometric Candlestick Charts and technical reversal triggers. Key protected mechanisms include:

- **Fatigue Doji Detection:** Algorithmic identification of low-variance candlestick bodies following high-stress exertion, signaling autonomic fatigue or postural drift.
- **Sub-500ms Ad-Slot Webhooks:** Automated firing of *POST /api/sponsor/activation/track* upon Doji confirmation, loading 2D/3D lower-third overlays, Jumbotron tickers, customized AR overlays, and mobile QR coupons ($1.00 fry flash sales, Victory Meals).
- **Sponsor Royalty Auto-Sweeping:** Routing 10.0% of fan micro-transactions generated during Doji trigger windows directly into custodial margin accounts as an interest-bearing cash-back cushion.

4. Commercial Licensing, Royalty Waterfall & Formal Declaration

Commercial deployment of BIM-APES software operates on a non-exclusive, perpetual B2B licensing framework across three tiers: **High-End Enterprise** ($750k–$1.5M/yr base + 2.5% AUM fee), **Mid-Tier Enterprise** ($150k–$300k/yr base + 1.5% AUM fee), and **Low-Tier/Pilot** ($50k–$100k/yr flat fee). All fan micro-transactions disburse via the 60/20/10/10 Split Rule (60% Athlete, 20% Team, 10% Sponsor, 10% Platform). Engagees acquire zero corporate equity, preserving 100% licensor control and zero dilution.

Formal Proof of Claim & Execution Declaration:
I, Dashawn Ramel Bledsoe, hereby declare under penalty of perjury that I am the sole inventor, author, and licensor of all intellectual property under **National Ice Ball League Sport, Inc. (dba: BIM-APES Software / NIBLS, Inc.)**, including alternate corporate designations National

Intelligent Ball League Sports and National Intelligent Blockchain League Sports. All rights are fully reserved under US and international copyright, patent, trademark, and trade secret law.
